The liberty horse clinic series is a **UNIQUE** clinic that can open many **OPPORTUNITIES** and take your **RELATIONSHIP** with your horse to the **NEXT LEVEL**.

### What can you expect to learn?

During the clinic participants, will work through the ground control series. The series is based on safe, foundational skills to help you and horse start from the ground up. This foundational program is used whether we are starting colts, working with problem horses or focusing on the next liberty horse. Exercises will focus on moving the hindquarters, shoulders, achieving lateral flexion both at the stand still and on the circle and changing directions.
